

"Proof of the Pudding"

Proof of the pudding is said to lie—not in the chewing of the bag—but in eating the pudding. Just so the proof of our flour lies in the eating of the bread made therefrom. And that they must "eat" all right, is proven by the large number of folks who will have nothing but Royal—Payson.

Anxious and worried housewives will find our place an ark of refuge. Everything in produce—and sugar, mill-stuffs, salt, hay, grain and numerous other household necessities, including that GOOD COAL—CASTLE GATE. Extra inducements on all canvas goods—everything for the miner, stockman and others.

We pay top prices for hay, oats, wheat and rye. We also sell these at right prices. "Blue Drays Do It Now."

MCKUNE FORWARDING CO. Price, Utah

PRICE AND NEARBY

Carbon county's board of commissioners meet in regular session Tuesday, November 6th.

Mrs. Belle Fitzgerald gave an educational program at the "home town dinner" at Helper last Saturday evening.

Mrs. L. A. Hills of Price is numbered among the sick and is under the care of Dr. E. M. Neff of Castle Gate.

Carbon county high school students have cut out banners like chewing gum and are to invest such money in liberty bonds.

N. S. Neilson subscribed five thousand dollars to the liberty loan in Carbon county. Also five thousand of the Carbon issue.

Wellington school children are helping this week to harvest the crops in that vicinity. Teachers are also in the potato and beet fields.

Prof. Orson Ryan, county superintendent of schools, held an interesting meeting with parents and teachers at Helper last Monday evening.

Denver and its Grands officials in New York have credited one hundred thousand dollars of its second liberty loan subscription to the state of Utah.

Price Commission company is this week shipping out four cars of honey now. It goes east and comes from the Uintah Basin. Around twelve and a half cents was paid the producer for it.

George C. Whitmore of Nephi has incorporated his estate in Utah, principally at Nephi, but which also includes valuable land holdings at Sunnyside. He is still in California, a sufferer from Bright's disease.

Ben Stein was out in his recently recovered stolen automobile Sunday

YOUR SUIT RENEWED

Just at this time of year, "between seasons," the question of "what is a puzzle. You may feel like investing in a new suit, and yet you need a change. We can help you out. Just get us some of those old suits you have hung back in the closet, and bring them to us.

We Make Old Clothes Look Like New

We not only press your suit, but clean it, taking out all the creases and dirt, and giving it really the appearance of new. We help you to practice economy with materials.

SHORT STORIES OF THE WEEK

LITTLE INTEREST SHOWS.

There was to have been a meeting of the Price Welfare association at the library building last Tuesday evening, but for the lack of a quorum it was not held. It takes ten to do business, but when the hour for meeting came but six answered to roll call, it appears that very little interest can be worked up for a local commercial body.

NEW USE FOR SHALES.

Conferring up a new use for shales, which abound in Carbon county and all of Eastern Utah, E. Covington, an inventor of Salt Lake City, submitted to Gov. Simon Bamberg last Monday a sample of gasoline which he claimed to have made from the shale manufacture, he said, could be cheaply accomplished. In recent tests of the fluid, he said, an automobile had run his machine an average of 24.61 miles on a gallon.

AS TO REMITTING TAXES.

Whether Ogden taxpayers, in military or naval service, shall have their county taxes remitted is still undecided in view of the opinion of County Attorney Charles L. Parry, who last Monday told the county commission that the statute does not provide for such action. He said it was a matter for the legislature and he favored such legislation. The board authorized a request upon the attorney general's office for an opinion on the question.

NEW ACT ON PENSIONS.

Postmaster General Durbin has issued a statement informing the public that Christmas mail matter intended for the men of the United States forces in Europe should be mailed not later than November 15th. Every parcel must be so packed and wrapped as to admit of easy inspection by the postmaster. No parcel will be dispatched to France which has not the postmaster's certificate.

PARCELS FOR CHRISTMAS.

By an act of congress passed and approved by the president October 4th, widows of officers and enlisted men in the army, navy or marine corps of the United States who served in the civil war, the war with Spain or the Philippine insurrection, now on the pension roll or hereafter to be placed on the pension roll, shall be twenty-five dollars a month. The act also provides that it shall be administered, executed and enforced by the commissioner of pensions.

WILL SET THE RECORD.

That the apple crop of the state will set a record in volume this year was the opinion expressed last Monday by John B. Walker, state crop pest commissioner, after a tour of inspection through the growing districts.

The damage done by frost has been practically negligible. He estimates the number of boxes of apples at 872,500.

Of these, Utah county is expected to furnish 361,000 and Box Elder county 360,000 boxes.

SUBJECT TO PROSECUTION.

Restaurant proprietors and keepers of boarding houses who resort to the

wily plan of watering milk before serving it to customers may be prosecuted by the state food and dairy commission. This threat is made by Walter M. Blyden, a member of the commission, following the receipt of complaints over the practice. Samples of the anomalous lactose product served to customers were subjected to chemical analysis by Herman Harms, state chemist. Half of them were found to be below the standard set by the state.

D. W. TRACY IS PAROLED.

D. W. Tracy, who killed his father-in-law, "Jimmy" Paddie, at Clear Creek in 1905, and was later sentenced to life imprisonment while Judge Ferdinand Erdmann was on the district court bench locally, was last Saturday pardoned by the state board. Tracy had been divorced from his wife. The latter and Tracy's children made their homes after the separation with Mrs. Tracy's father. The mother grew out of the alleged abuse of Tracy's children by their grandfather, Paddie. The killing occurred in the saloon at Clear Creek.

ARE ASKED TO HELP.

The United States food administrator has asked the libraries of the United States to co-operate in placing before the people intelligent reasons for and methods of food conservation. In each state the federal food administrator has been requested to appoint a director of library publicity. These directors are to be kept in close touch with the food administration through the office of the chief of division. From that office a monthly bulletin with suggestions and instructions will be sent to each library in the United States.

THIRD COMMUNITY SING.

Price's third community sing last Sunday afternoon in front of City Hall drew a crowd of five to six hundred people, who heartily enjoyed every number on the excellent program.

Between times, as it were, Miss Miriam Thurman spoke of the writing of "The Battle Hymn of the Republic," and Miss Corinna Stevenson rendered a patriotic reading. Numerous persons from surrounding towns and camps were present. The singings are becoming very popular and are attracting many persons to the city who would not otherwise be here. C. H. Marquay told of the progress of the second liberty loan locally.

COMING TO LIFE AGAIN.

Owners of the local ice plant, it is said, are to give it a thorough overhauling before next summer with the idea of carrying in the Price trade which got away from it in the past season because of a breakdown to the machinery and its general worthlessness.

It was brought here in the first place second-hand and has been the source of much grief ever since. The Sun hasn't the confidence of the management, but ventures to say that if the proposition is to do business on the model of the past, it will be dismally bad.

Cash in advance for tickets for ice doesn't set well with the average man or woman, especially if there be doubt of responsibility. It might be a good plan to pay with cash and

every delivery instead. If two or three hundred folks are made to pay around two dollars and a quarter in advance for ice tickets, the fellow running the business has at all times six or seven hundred dollars of somebody else's money in his kick on which to operate.

TO ERGE CONSERVATION.

With a view to bringing home the realization that economy will be a big factor in winning the war, churches of Utah have outlined a systematic campaign to save the state's resources through food conservation. The interial drive will begin next Sunday and will continue until December 3rd. Practically all of the heads of the leading churches of the state have joined in the movement.

UTAH PRODUCTS WEEK.

Declaring that manufacturers of Utah have become a vital part of the state's industries, Gov. Simon Bamberg has issued a proclamation designating November 11th to 17th Utah Products Week. He urges that attractive displays be made of the various articles turned out in order that people may become better acquainted with the many manufacturing enterprises carried on.

PARCELS RATES UNCHANGED.

While the rates on letter and post card postage will be increased on November 1st, next Thursday, a letter requiring a three-cent stamp after that time and a postal card a two-cent stamp, as far as can be learned at the local post office, there will be no change in parcels post rates. This is an important question here, as daily large amounts of goods of all kinds are sent out from this city by post.

PARCELS FOR CHRISTMAS.

Postmaster General Durbin has issued a statement informing the public that Christmas mail matter intended for the men of the United States forces in Europe should be mailed not later than November 15th. Every parcel must be so packed and wrapped as to admit of easy inspection by the postmaster. No parcel will be dispatched to France which has not the postmaster's certificate.

WILL SET THE RECORD.

That the apple crop of the state will set a record in volume this year was the opinion expressed last Monday by John B. Walker, state crop pest commissioner, after a tour of inspection through the growing districts.

The damage done by frost has been practically negligible. He estimates the number of boxes of apples at 872,500.

Of these, Utah county is expected to furnish 361,000 and Box Elder county 360,000 boxes.

HELPER ONE TICKET.

Helper democrats and republicans each called primaries for last Saturday evening to place delegates in the field for city offices, but later got together and agreed on a citizens ticket. Dr. F. D. Stimpson is the nominee for mayor; E. A. Greenhank, four-year councilman, and D. Vignette, Stephenson, Gagnon and C. H. Soriano, two-year councilmen. C. R. Jones will be the next city recorder and Sam Stein, treasurer.

CHARGED WITH FORGERY.

Mrs. Frank Warren, who resides up the river a couple of miles from Price, was taken to Salt Lake City last Wednesday. The charge against her is the forgery of checks at Zion in connection with one "Bill" Baumhauer some weeks ago. Mrs. Warren was arrested the first of the week by the sheriff's forces. Charles E. Wood, a deputy sheriff, came after her. A. Duspane, a Zion grocer, is the complainant. Mrs. Warren is around 15 years of age and has reared a large family.

AT THE METHODIST CHURCH.

President Wilson names Sunday, October 28th, as a day of prayer for the welfare of the world. We wish to observe this appointed day at 11 o'clock services. Subject of sermon, "Prayer in Time of War." Sunday school at 10 o'clock. A special program at 1:30 of the evening under the auspices of the Epworth league. Address by Prof. Orson Ryan, county superintendent of schools. Subject, "Life is Service and Service is Life." Special music will be furnished consisting of solos, duets and anthems. H. T. Zellers, minister.

HELPING WITH CROPS.

Carson high school students and the junior students as well were dismissed yesterday and today from their classes to answer the call for harvest help at Wellington and elsewhere in the county. About fifty are to assist in garnering the beet crop there, while something like a hundred will tender their services elsewhere in the county. Many will go to the potato fields surrounding Price and also to the gardens and small patches locally. Farm labor is quite scarce in Carbon county as well as elsewhere in the state.

PLACE FOR THE FREIGHTERS.

Price Commission company has closed a deal for between six and seven acres of ground south of the Denver and Rio Grande tracks, known locally as the Williams estate, upon which the firm will maintain feed yards for freighters and others from Emery and times from the Uintah Basin and elsewhere as well. Two bunkhouses and about two hundred feet of stalls will be provided. Water is to be piped in and stoves and other comforts with fuel provided. These places will be leased to someone whose charges will be moderate for the services furnished. The place will be put in readiness at once.

WAR TAX IS APPLIED.

War taxes, which hit the citizen while he is in his own home town, will also reach him if he travels himself and his chattels to some other place. For war taxes will apply to both passenger and freight transportation after November 1st. On all railroad tickets to points in the United States, Canada and Mexico the tax will amount to 8 per cent of the fare. On freight, it will be 5 per cent of the charges. On Pullman tickets it will be 10 per cent of the cost of berths. The war taxes are levied in

John Jay Knox

Money he earned and saved as a village youth he spent on an education. As a bank clerk—later—he was studious and thrifty. At middle age a great financier, Knox lectured and wrote about banking topics and as comptroller of the currency he helped refinance the government after the civil war.

Are you preparing for future prosperity and comfort by saving regularly a part of your earnings? Will you be able to take advantage of opportunity for profitable investment when it comes? Could you weather a sick spell without going heavily in debt?

Be able to say YES to these questions a few months hence by starting a savings account with us with a part of your pay this week.

WILL—A LIBERAL REWARD
will be given for the return here of my son's saddle pony. A little bay mare as round as a ring will be rewarded if she lives till spring. Has two white hind foot and a spot in her head, and my boy loves her every inch from tail to her head. Has small switch on her right knee and gentle nature can be seen. Cal Craggin, Clear Creek, Utah.

Mrs. P. Bass Smith, Belgian referee and lecturer, had a narrow escape from probably serious injury in coming to Price from the Uintah Basin country one day last week. The car in which she and other passengers were riding swerved to the edge of a precipitous dugway, but was checked in its slide by a large boulder. Passengers jumped from the car as it went down the hill and was hurled to the bottom, a hundred or more feet below. The accident occurred on the Helper to Duchesne road.

Price Commission company is handling the largest quantities of grain and hay for many seasons and is taking everything offered by the farmers of this section of the state. Much stuff is coming in from the south and from the Uintah Basin section.

When it comes to real near beer, there is only one on the market. That's "Snappy." Handled wholesale locally by Price Commission company.—Adv.
